

Funeral Flowers Price List

Funeral tributes can be collected from the Flower Farm or I can deliver for free within Ledbury. Delivery to undertakers in Malvern is £25.

Many of the arrangements that I make are 100% compostable meaning that they are suitable for green burial sites. The handmade nature of many of the arrangement bases means that some of the sizes are approximate. The price may vary depending on specific requests. During the flower season I use flowers grown here on the flower farm and in the winter months I can supplement my home picked foliage with British flowers from larger growers.
